

Invented during World War I to break the grim deadlock of the Western Front trenches, tanks have gone on to revolutionise warfare. From the lightning Blitzkrieg assaults of World War II to the great battles in the Middle Eastern desert and the largest ever tank battles on the Eastern Front, tanks have become one of the key components of the combined arms philosophy of warfare. This pocket guide gives the reader all of the essential information on 40 of history's premiere tanks, including the Tiger, Sherman, Panther and M1A1 Abrams. Each tank is presented with a detailed drawing to aid recognition.

A Discovery Walk in Rome: Walking Directions (Worldwide Discovery Walks Book 15), The Panama Canal: A History of One of the Most Difficult Engineering Projects Ever, ELECTORAL REFORM MINORITY REPRESENTATI: LOCAL EXPERIMENTS & ALTERNATIVE ELECTION, Empires and Colonialism, Westport, Connecticut: The Story of a New England Towns Rise to Prominence, Action Against Small Arms: A Resource and Training Handbook,
