

Wake UP America!!! is a plea to fellow Patriots to help restore our U.S. Constitution that IS hanging by a thread. A few years ago I was awakened in the middle of the night with truth and understanding pouring into me which I recorded on a 24x 36 sheet of architectural paper. That inspiring genesis began years of research and writing to produce Wake UP America!!! This book is a spiritual & secular sword of truth to slay dragons of deceit & treacherous tyrants hiding in plain sight disguised as sheep in wolfs clothing that slink in the shadows behind shrouds of political correctness and moral relativism. It is about principles, not politics. No other book I know of presents a combination of how to discern between truth & falsehoods, summarizes God's truth vs. Satan's counterfeit, identifies America's real roots, how & why America became great, causes of America's descent, evidence of America's awful situation, and what We The People MUST Do and CAN Do NOW to restore Our Republic. We are eternal spiritual beings having mortal physical experiences; not the other way around. The World would separate the two. This book connects the spiritual and secular dots of our past, present and future to present a holistic view of life; 'big picture' tapestry that sharpens vision and empowers people to act to promote a preferred future. America has a divine mission to be a 'light on a hill' that shines the light of liberty to all the World; "for out of Zion shall go forth the law". This book invites men of good will everywhere to unite in a common mission to restore OUR Republic; to rise up and act to correct our course and enable America to fulfill her divine mission.
