

# DEMOCRATIC MOVEMENT for SUSTAINABLE COMMUNITY REVOLUTION & DEVELOPMENT: World Indigenization & Anti-Imperialization Federation (World Renaissance Series Book 4)

The writing of this leadership treatise was necessitated by the unfortunate fact that most chronic problems facing indigenous people such as underdevelopment and the numerous conflicts being witnessed in most continents is directly caused by the prevailing imperial ideology and an inhuman civilization. The book argues that the ideological and civilizational clash between the imperially superimposed solutions and the humane indigenous world reality is the main cause of the perpetuation and escalation of these problems. In brief, this Fourth Volume of the World Renaissance Series reveal, among others:1. That indigenous communities use indigenism ideology whereas imperial societies use imperialism;2. That the indigenous economic philosophy is communalism whereas the economic philosophy of imperial ideology is capitalism;3. In details, the various tactics and strategies used by the imperial elite to perpetuate imperialization and which is presently and aggressively being shrewdly pushed down our throats disguised as (technological) globalization;3. How the indigenous world shall go about establishing and operationalizing a world-wide indigenous movement, institutions and leadership structures capable of overthrowing imperial parties currently mismanaging local, national and international affairs;4. Exposes the ways and means of indigenizing our ideologies and civilization. It thus advocates for the rerouting of our thoughts and actions away from the foreign imperial systems and structures;5. Enlightens us on the true nature of our indigenous civilization and the need to eschew alien superimposition;6. Advocates for the indigenization of our governance and the speedy revival and restoration of the institutions and ideologies which we inherited from our forebears. By indigenization or communitarianization, we mean the same

ideas, ideals, principles and philosophies as elucidated by most of the founding fathers of our post-colonial nation-states and;7. Shows how to develop and roll out a triumphant indigenous movement capable of ideologically unifying and civilizationally fusing the indigenous world so as to be able to take its rightful and vanguard role in humanely steering world affairs this Third Millennium;
