

The 21st Century American Patriot

Very few are aware that the Founding Fathers of the United States of America provided for the advent of a failure of the Democratic system to provide honest and competent leadership. Eric Epifano has deftly reminded us of what it is to be patriotic Americans. We, as citizens and voters, do have the power to maintain this country as a free and just one, where we citizens control our leadership so it does not spend us into oblivion for its own selfish interests. This is a must read; and now!!! Your freedoms and your future may depend on what is contained in this book. It teaches you that your vote counts!
