

The Hand of the Past in Contemporary Southern Politics

A central story of contemporary southern politics is the emergence of Republican majorities in the regions congressional delegation. Acknowledging the significance and scope of the political change, James M. Glaser argues that, nevertheless, strands of continuity affect the practice of campaign politics in important ways. Strong southern tradition underlies the strategies pursued by the candidates, their presentational styles, and the psychology of their campaigns. The author offers eyewitness accounts of recent congressional campaigns in Texas, Mississippi, Virginia, North Carolina, and South Carolina. In the tradition of his award-winning book *Race, Campaign Politics, and the Realignment in the South*, Glaser captures the stuff of politics: the characters, the images, the rhetoric, and the scenery. Painting a full and fascinating picture of what it is like on the campaign trail, Glaser provides wide-ranging insights into the ways that the hand of the past reaches into the southern present.
