

Koreas Relations With Her Neighbors in a Changing World

Recently we have witnessed drastic changes in international situation at large and the situation in and around the Korean peninsula in particular. South Korea has accomplished diplomatic success by means of its Northern Policy. She has normalized her relations with the countries of Eastern Europe including Russia and later, with China. She has also been admitted to the United Nations as a full member. In order to shed light on the background and the force of South Korea's political development and diplomatic achievements, Dr. Kim has gathered the papers he wrote on the Northern Policy of Korea and also on her relations with her neighbors in the light of the Korean War and the division of the Korean peninsula.
