

REAGAN PRESIDENCY AND THE GOVERNING OF A (The Changing domestic priorities series)

The authors of this conference volume discuss the effect of the Reagan administration on Americas politics and its governing institutions and processes. Chapters describe and evaluate the effect it has had in areas such as political philosophy, public opinion, Congress, the Executive Office of the President, and the civil service. Provides broad and varied insights by some of the most astute students of American government into the operation of the Reagan presidency and into its larger significance for American political life.
